Subject: GAEPD PFAS Study - Blairsville, GA (LSASD ID: 20-0147)

Hello Jason,

As per our discussion, I have submitted the project request for the GAEPD PFAS Study- Blairsville, GA in project log (LSASD Project ID: 20-0147).

This project includes a maximum of 20 water samples for routine PFAS scan. This includes all potential quality control samples and a duplicate.

All the samples are water samples, however, two of the samples will include leachate and WWTP influent which may have high concentrations. Just a heads up for the lab.

EPD is planning on collecting the samples next week Tuesday 1/14. They will most likely deliver the samples personally between Wednesday (1/15) – Friday (1/17) depending on weather.

I have also submitted the container request below. They will need 48 PFAS vials, 2 trip blanks, and 1 liter of PFAS-free water by this Friday afternoon (1/10) at 15:00. They will swing by to pick up the vials to prep them for next week's study.

I have CC'd the EPD contacts for this project on this email: Shea Buettner (Shea.Buettner@dnr.ga.gov), Clete Barton (Clete.Barton@dnr.ga.gov), and Reid Jackson (Reid.Jackson@dnr.ga.gov).

Please let me know if you have any questions.

All the best!

Nate

Subject: LSB PFAS Container Request for 20-0147 by Nathan Barlet, Needed by 1-10-2020/15:00

LSB PFAS Container Request

Requestor: Nathan Barlet

E-mail: barlet.nathan@epa.gov

Needed by: 1-10-2020/15:00

ProjectNumber: 20-0147

Sampling Date: 1-14-2020

Site Name: GAEPD PFAS Study - Blairsville, GA

Account Number: 000B53

Containers Requested: 48

Trip Blanks Requested: 2

Shipping:

Pickup

Comments:

This container request is made on behalf of Shea Buettner of GAEPD. They will also require 1 liter of PFAS-free water for the collection of quality control blanks in the field.

For further assistance, please contact:

Diana Burdette at 706-355-8688

Thank you,
LSB
